Remember in auto mode, the iPhone camera doesn't know what your creative intentions are for any given photograph. When you shoot in auto you are, in fact, relinquishing creative control to the camera. Now, in all fairness, the iPhone, even in auto, does quite a remarkable job in determining exposure, focus, white balance, shutter-speed and ISO.

A Beginners Guide for Manual Controls in iPhone ...

Description. The iPhone 4s is a gradual step over the iPhone 4 improving the internals, but keeping the look and feel. At the same time, though, it brings a reworked iOS 5 and introduces Siri, a personal voice assistant allowing you to vocally communicate with the iPhone.
